The Red Line Series School Maps

Most Complete, Handsomest and Substantial Maps Published.
Latest and Best. Bold, Clear and Striking.

In presenting this series of Maps, we have three objects in view—legibility, correctness and accuracy. It is a fact that quite a percentage of students of all ages are in some slight measure, defective in eyesight. It is our theory, therefore, that all School Maps should have the contour lines of coasts, countries and states as broad and strong as possible; all names as prominent as they can be represented with due regard to their relative importance; that these names also should show as nearly as compatible the relative value of the states, in population and other importance; further, the color printing should show in masses so disposed as to instantly display the boundary of any country or state to the average eye, so that they will be fixed in the memory without conscious effort.

These things we think we have achieved better than has been done

heretofore. In addition to this, the utmost pains have been taken to correct coast lines by the very latest authorities; and the latest changes in boundaries, determinate and indeterminate, especially in South America and Africa, have been laid down by the authority of the Foreign Consuls in this city as well as the published information of the State Departments of the various countries.

As far as mere technical execution is concerned, we think our work will compare favorably with anything in the market.

The Maps are Backed with Heavy Cloth.

SET OF EIGHT MAPS, 40x58 INCHES, IN OAK CASE, ON SPRING ROLLERS.

The Complete Set Consists of the Following Eight Maps:

Eastern Hemisphere, Western Hemisphere, Europe, Asia, Africa, North America, South America and United States. Each map 40x58 inches.

SET OF FOUR.

Unless otherwise ordered, we send for set of four, Eastern Hemisphere, Western Hemisphere, United States and Europe.

AGENTS WANTED EVERYWHERE IN UNOCCUPIED TERRITORY.

EXPLANATION OF THE FORM AND MANNER OF KEEPING REGISTER.

TEACHER'S DAILY REGISTER--FOR THE TERM COMMENCING MAY 20th, AND ENDING JUNE 21st,
SPRING TERM.

JULIA RAYMOND, Teacher.

In the above form the record is given of the attendance and punctuality of six pupils, during a term of five weeks. E indicates the day on which the pupil entered the school. \ indicates absence in the forenoon. / indicates absence in the afternoon. Small figures in the upper half of the space indicate the number of minutes late in the forenoon, and small figures in the lower half, the number of minutes late in the afternoon. e. after the small figures signifies that the tardiness is excused. The absence of marks indicates that the pupil was present the entire day. The studies pursued by each pupil are marked with a star (*) in the space opposite his or her name, and under the proper division of branches studied. The deportment of each pupil is marked in numbers, according to the general behavior of each—100 indicating the highest degree of excellence; 95, very good; 90, good; 80 to 90, medium; 70 to 80, poor; less than 70, very poor.

The record shown in the above formula is thus explained, viz.:

Henry Johnson, aged 11, entered school Monday, May 20th, was 20 minutes late (tardiness excused) in the forenoon of Wednesday of the same week, was absent on Friday afternoon, was absent forenoon of Monday, June 3d, and absent all day Wednesday, June 12th. Attendance, first week, $4\frac{1}{2}$ days; second week, 5 days; third week, $4\frac{1}{2}$ days; fourth week, 4 days; fifth week, 5 days—total attendance for the term, 23 days; number of days absent, 2. Department good—studying Reading, Writing, Orthography, Arithmetic, Grammar and Geography.

Charles Forrest, aged 8, entered school Thursday, May 30th, was 15 minutes late afternoon of Monday, June 3d, and 10 minutes late forenoon of Wednesday, June 5th, absent all day Thursday, June 6th, absent all day on Monday, June 10th, Thursday, June 13th, and Friday, June 14th, was 10 minutes late (tardiness excused) afternoon of Wednesday, June 12th. Attendance, first week, 2 days; second week, 4 days; third week, 2 days; fourth week, 5 days—total attendance for the term, 13 days; number of days absent during the term, 4. Deportment very bad—studying Reading, Writing and Orthography.

Paul Herrick, aged 9, entered school Monday, May 20th, and was constant in attendance throughout the term. He was 10 minutes late in the forenoon of Monday, June 3d, but was excused for tardiness. His total attendance for the term was 25 days. Department excellent—studying Reading, Writing, Orthography and Geography.

The record of the other three pupils can easily be read by reference to the above explanations, and the teacher can very readily become familiar with the system, which is thought to be as simple, and at the same time as clear and exact, as any in use.
